

NARRATIVES OF DIGITAL ETHICS

**AGIDE (ACADEMIES FOR GLOBAL INNOVATION
AND DIGITAL ETHICS) REPORT**

ACKNOWLEDGEMENTS

The research project “Academies for Global Innovation and Digital Ethics” (AGIDE) led by the Austrian Academy of Sciences (OeAW) seeks to explore the various (cultural) dimensions of digital ethics and global innovation – that is, how technologies are transforming our societies and global structures – by taking off the “Eurocentric glasses”, embracing differences, and going beyond familiar stereotypes or clichés. To this end, the Austrian Academy of Sciences has been cooperating with ten other Academies of Sciences from all over the world.
